ONDA-640FCW

40W 8ohm 2-Way Hi-Fi Ceiling Speaker with Frameless Grille

The ONDA-FCW series offers Hi-Fi coaxial speakers designed for all applications requiring superior audio quality, even at high sound pressure levels.
The Kevlar woofers with variable diameters of 5.25”, 6.5” and 8”, the 1” adjustable silk dome tweeters, and the integrated precision crossover give this line of ceiling speakers crystal-clear, precise, and extended sound across the entire frequency range, even at high sound pressure levels. Power outputs range from 30W to 50W RMS depending on the woofer diameter; impedance is 8 ohms.
The chassis of the ONDA-FCW ceiling speakers is made of high-quality ABS; the frameless metal grille with magnetic attachments gives these speakers an elegant and refined look. Installation is extremely simple, thanks to the quick-mounting system with 4 screws. They are available in white but can be painted any color.

PRODUCT DETAILS

Key features

2-Way Coaxial Loudspeakers
6.5” Kevlar Cone Woofer
1” Silk-Dome Tweeter with adjustable angle
Precision Crossover
40W RMS Power
8-ohm Impedance
Frameless Metal Grille with Magnets
Quick-Fit Mounting System

Specifications

RMS Power	40W
LF Transducer	6.5” Kevlar Cone Woofer
HF Transducer	1” Silk Dome Tweeter
Impedance	8Ω
Frequency Range	50Hz – 20kHz
Sensitivity	92dB (1W@1m)
Cutting Ø	206mm (8.11”)
Speaker Size	Ø245,00 x 123,00 mm (Ø9.64” x 4.84”)
Speaker Weight	1.75kg (3.86 lbs.)
Packing Size (WxDxH)	250 x 250 x 135 mm (9.84 x 9.84 x 5.31 inches)
Packing Weight	1,80kg (3.97 lbs.)
