SONIX UD2

Dante™ I/O Interface, USB 2x2 Channel, Plug & Play

The SoniX UD2 is a USB Type-C interface with 2 inputs and 2 outputs, and access to the DANTE™ network via an RJ-45 port. Configuration is done via the DanteController™ application by Audinate™ and is extremely quick and intuitive. Power is supplied directly from the USB port. The interface is plug-and-play, compatible with Windows® and Mac® operating systems, and requires no drivers.
