

DEKO-P256B

Pair of 2.5" Full range Wall mount Projectors (Black)

Nowadays, small to medium-sized installations increasingly require maximum discretion and a refined look, even where the speakers are barely visible. This understanding is behind the creation of the HELVIA Deko-P256 series wall-mounted speakers.

These are high-performance projectors with a 2.5" full-range woofer. The maximum program power is 25W @ 8ohm. The housing - available in white or black - has a highly stylized design and is made of high-quality plastic. The wall-mounting bracket (included) is vertically adjustable and, since it has a round base, can be mounted by tilting it horizontally as needed. The bracket's structure is also made of high-quality plastic and allows the cable to be hidden, making it completely invisible.

PRODUCT DETAILS

Key features

Stylish design for minimal visual impact

High quality materials

2.5" Full-Range Cone Woofer

25W Program Power @ 8ohm

70V/100V Built-in Line Transformer with 2 Taps and 8ohm function

Specifications

Full-range Wall-mount Sound Projector

Power	25W Program @ 8ohm
Woofer	2.5" full range
Frequency Response	200Hz-20kHz
Sensitivity (1W@1m)	88dB
Transformer tapping @ 70V	3W - 1.5W - 25W@8Ω
Transformer tapping @ 100V	6W - 3W - 25W@8Ω
Accessories	Wall-mount (included)
Projector Dimension (ØWxH)	96 x 139 mm (3.78 x 5.47 in)
